2025 Survey changes

Main Global Marketing job catalogue changes.

- Simplify the Global Marketing Job Matching Table and modify to emphasize specialty flags required and still reference the legacy GMS position codes.
- Add levels Team Leader (Professionals)(M2) and Specialist Professional (P4) to all specializations.
- Add levels M3, P3, P2 to General Communications and Corporate Affairs.
- Online Marketing/Advertising Analytics (Ad Agencies) specialization changing to Digital Marketing Analytics
- New job families/specializations added:
 - Advertising Production Business Affairs (Ad Agencies)
 - Color Design & Editing (Media & Entertainment)
 - Non-interactive Media Visual Effects (Media & Entertainment)

Open participation to in-house agencies and add a mandatory field in Company Data for “external” and “in-house” to refine the data.

Change Revenue Responsibility back into buckets (Less Than \$15 Million, \$15 Million to \$50 Million, \$50 Million to \$150 Million, \$150 Million to \$500 Million and \$500 Million or More) and update the Currency Converter.

Calculate Position Class by collecting industry and revenue information in Company Data plus an optional comments field for agencies to provide a range or additional context for revenue if needed.

Agencies partner with Mercer to increase participation in Latin American countries and to obtain best practices on how to age data in Argentina given high inflation.

Navigating Mercer Data Connector – Overview

Data for 2025 Global Marketing will be submitted in the Mercer Data Connector (MDC) tool.

Agency representatives are notified via email when the MDC tool is open for Global Marketing or when they receive access and can click on a link to access the survey or access this link in the My Participation section in iMercer accounts.

Agency representatives can delegate access if needed.

Agency representatives must upload, validate and submit data in the MDC tool by July 31. (No separate data validation file to review).

No deadline extensions.

Data collection

Navigating Mercer Data Connector – Participation dashboard

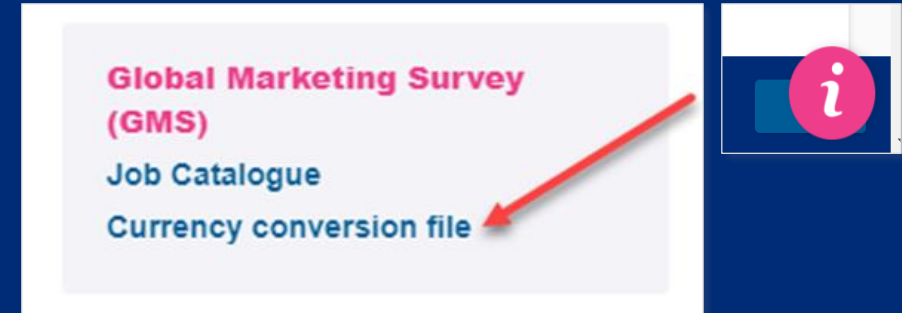

After entering MDC, launch the campaign for 2025 Global Marketing (GMS) Data Collection and you will see the following tiles and can monitor your progress.

The screenshot displays the Mercer Data Connector interface for the 2025 Global Marketing (GMS) Data Collection campaign. The top navigation bar includes the Mercer Data Connector logo, a breadcrumb trail for the campaign, and links for 'SUBMIT DATA', 'ORDER PRODUCTS', and user settings. A banner at the top indicates the last update date as 05/12/2025. Below the banner, the 'Your Participation Progress' section features a 'Download Your Data' link, a 'View Deadlines' link, and a 'Submit Data' button. A filter dropdown labeled 'Apply Filter' is also present. The main area contains four progress tiles: 'Company Data' (0 out of 11 Completed, BEGIN button), 'Employee Data' (0 out of 11 Completed, BEGIN button), 'Order Products' (0 out of 11 Submitted, ORDER button), and 'Submit Data to Mercer' (0 out of 11 Submitted, SUBMIT button). Each tile shows a 'NOT STARTED' status with a progress bar. The footer includes the Mercer logo, copyright information for 2025, and links to the Resource Center, Glossary, and Contact Us, along with social media icons and a help icon.

Data collection

Navigating Mercer Data Connector – Steps

- Enter organization information in the **Company Data** tile. Check to make sure all agencies/countries you intend to submit data for are listed in the campaign and delegate access if needed.
- Enter **Employee Data** information. In the Employee Data tile download an excel file template, which will be pre-populated with any data submitted from 2024. Update that file with incumbent information and upload to the tool.
- Validate your data by responding to the validation questions. After validation, please hit the **Submit Data** button! No need to enter information in the **Order** tile since Mercer will follow up separately after data collection.
- To access resources including the 2025 GMS job catalogue (with job mapping table) and currency conversion file please click on the information icon on the bottom right.

Navigating Mercer Data Connector – Employee data

The screenshot displays the Mercer Data Connector interface. At the top, the header includes the Mercer Data Connector logo, navigation links for 'SUBMIT DATA' and 'ORDER PRODUCTS', and user icons. Below the header, a breadcrumb trail shows 'Your Participation Progress > Status > File Upload'. On the left, a sidebar menu is highlighted with a pink box, containing 'Status', '1. File Upload', '2. Job Match', and '3. Validation'. The main content area is titled 'File Upload' with a document icon. Below this, a pink box highlights the 'Apply Filter' dropdown menu. The main content area contains instructions for file upload, including a 'Download Template' button highlighted with a pink box.

File Upload

Apply Filter

First select companies you want to upload from the drop down list on the right. When preparing your file choose one of below options:

I participated last year and want to review my pre-populated data.

Click the "Download Template" button and Mercer Data Connector will generate an Excel file that contains your data from last year. If you have more than one company and country (or region) combination selected, they will be identified in the "Company Name" and "Country/Region Code" columns. This is the easiest way to update your employee data.

I want to use a blank template.

Click the "Download Template" button and Mercer Data Connector will generate an Excel file template. If you didn't participate last year, the template will be blank but if you did participate, data will be pre-populated – just delete it and copy and paste your data into the Excel file – don't modify the columns.

I want to upload my HRIS file.

Using an Excel (xlsx only) file, upload your file by clicking the "Upload" button. Once your file is uploaded, Mercer Data Connector will prompt you to map your column headings to Mercer's columns and identify the country (or region) combinations the data applies to.

Are you uploading data for multiple countries (or regions) using one file?

During the file upload process, Mercer Data Connector will automatically skip data that is not applicable for the countries (or regions) that you are participating in. Why do we do this? Mercer Data Connector automatically cleans and validates your data during the file upload process. By removing responses that are not applicable, you won't have to review answers that are not needed for your survey participation.

Job matching reminders

Matching Your Jobs

- Use your resources to understand your jobs
 - Line managers, peers, and Mercer
- Each incumbent should be matched to only one position
- Match on job content
 - Not job title
 - Not the incumbent in the job

A Good Match

- All duties described may not be performed
 - Good match represents at least 80% of benchmark position
- If major responsibilities in job description are not a part of your position (or vice-versa), another match may be more appropriate

Hybrid Jobs

- Some jobs are too unique to match (e.g. incumbent spends 50% in marketing, 50% in IT)
- Contains 60% or more job content, otherwise exclude

There are three actions to take when presented with an audit:

 **Fix the error:** The tool is user friendly, and you can address any corrections through this without redoing the incumbent submission.

 **Dismiss:** This accepts the entry as is and Mercer may take further action if required.

 **Exclude:** This omits the entire line of data from being included in the submission. ***Use with caution.***

Be sure to understand the difference between Dismiss and Exclude

2024 Survey changes

Main Global Marketing job catalogue changes.

- Only positions in scope for Global Marketing are included in the Global Marketing campaign job matching tool.
- Director (M40) and Entry (P10) levels added to User Experience Design.
- New job families/positions added to the campaign:
 - Data Engineering
 - Data Science
 - Enterprise Data Architecture
 - Software Development Engineering

Turnover questions added to the Company Data section.

Specialty flag added for buying activity for Media buying positions. Creative flag added for all sectors and not just digital.

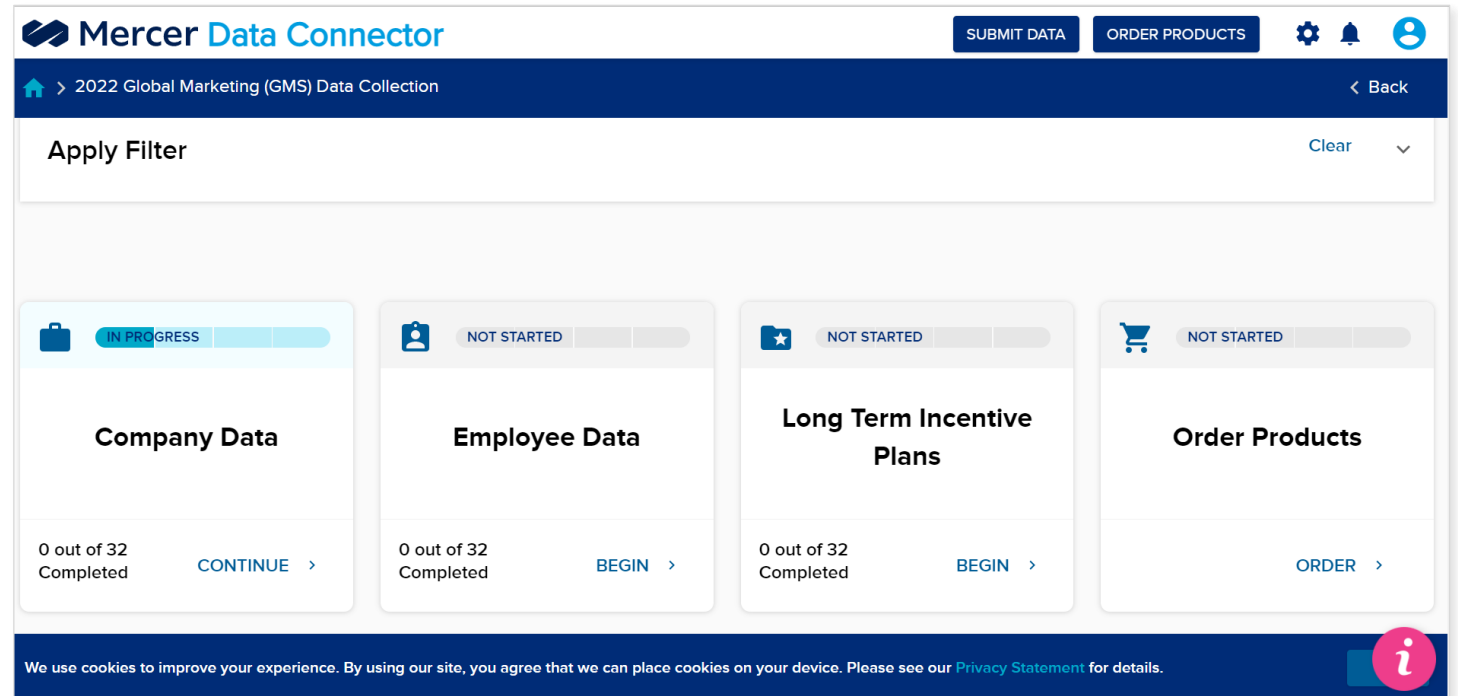

Executive framework changes in Mercer Job Library, specialty flag guidance and legacy codes from 2022 included in job matching booklet.

Global Account Leader and Global Creative Leader mapping changes from level P50 to ET3 and Global leader specialty flag added.

Mercer Data Connector (MDC)

- MDC tool will be further enhanced and customized for Global Marketing.
- 20 countries in scope for 2025.
- Users can upload data for various markets/agencies and delegate access.
- Real-time validation.
- Data pre-population from 2024.
- Easy to navigate progress via Participation Switchboard.

Mercer Job Library (MJL)

Global Marketing Survey positions transitioned to Mercer Job Library.

Single catalogue

Based on “**nature of work**” across Mercer’s thousands of surveys; supports emerging and mature markets, large and small companies, and different industries.

Clear relationship between jobs

Allows Mercer to provide appropriate alternatives, through the **data roll-ups**, when insufficient data exists.

Across all countries

Simplifies and **standardizes** our global and regional surveys and the market data for our multi-national clients.

Mercer WIN enhancements

Online platform is more intuitive. Improved, browser-like filters and helpful fly-outs.

Special thanks to our agency contacts for providing input to the mapping to MJL and new positions for 2025!

MJL benefits for global marketing

Underpinned by universal and cutting-edge job sizing and nature of work research to help align and standardize positions across markets.

Global catalogue with ad-agency positions that align to Global Marketing positions.

Offers levels for different career tracks: Para-Professional, Professional, Management and Executive (P1, P2, P3, M1, M2, etc.)

Aligns with leveling methodology of other surveys, such as TRS, and offers core job and combined job statistics in survey results.
