

WELCOME TO THE NEW MERCER COST PROJECTION CALCULATOR

Are you looking to temporarily relocate an employee and need a cost estimate to build your business case? Are you currently reviewing your policy and need cost simulations? We're here to help – with cost-effective solutions that will enable you to test different scenarios in house, easily and quickly.

What Is the New Cost Projection Calculator?

Mercer's Cost Projection Calculator is designed to help companies with strategic planning, budgeting, comparative cost-modeling and management buy-in on policy changes.

In addition to our existing Balance Sheet Calculator, the new Cost Projection Calculator enables a full-assignment-duration cost-estimate calculation.

How Can the Cost Projection Calculator Help You?

With the Cost Projection Calculator, you can:

Calculate yearly and overall costs according to entered start and end assignment dates.

Determine cost item recurrence type and yearly increment to be taken into consideration.

Include one-time expatriation and repatriation costs.

Determine elements that are taxable for host-country tax estimation.

Select social security options.

Four Key Advantages of the Cost Projection Calculator

QUICK AND EASY TO USE

- Users can leverage data input and options from the Balance Sheet Calculator within the Cost Projection Calculator.
- You can determine preference settings and default data entry to facilitate and ensure consistent input for each calculation.
- The intuitive, user-friendly and modern interface provides an optimized user experience.

FLEXIBLE AND ALL-IN-ONE SOLUTION

- Users can run a cost projection only, a cost projection and a balance sheet calculation, or just a balance sheet calculation – all from the same data input.
- The Cost Projection Calculator integrates the extensive range of Mercer's robust data and tools.
- This flexible solution works with a wide range of options to compare and evaluate results.

ACCESSIBLE SOLUTION

- Fixed annual license fee for unlimited calculations.

24/7 GLOBAL ACCESS

- Access your data anytime, from everywhere.
