

EXPATRIATE HOUSING WITH A PERFECT VIEW MERCER MOBILIZE HOUSING SOLUTION™

Set Housing Budgets With Confidence

Determining fair, cost-effective housing budgets – one of the most expensive pieces of the expatriate package – can be difficult and setting inappropriate housing allowances can quickly lead to overspending, displeased expatriates, or both.

To make the most informed decisions possible, you need robust information that provides a comprehensive view of local expatriate housing markets worldwide. With **Mercer Mobilize Housing Solution™**, you have that perfect view.

Easy Access To Extensive, Accurate Data

Mercer Mobilize Housing Solution is an advanced, interactive, and easy-to-use platform that taps into Mercer’s extensive data resources and expertise in advising clients on expatriate housing information. It provides direct access to up-to-date, in-depth housing data for 442 locations worldwide on a platform that lets you tailor housing decisions to your company’s needs – giving you confidence in providing equitable, cost-effective housing allowances.

This revolutionary tool allows you to:

- Set realistic housing budgets and manage expectations
- Justify decisions and receive educated buy-in from all stakeholders, including senior managers and expatriates
- Take control with increased transparency in determining allowances
- Minimize exception requests

Dynamic Features That Make Managing Housing Decisions Easy

Mercer Mobilize Housing Solution™ features an enhanced, user-friendly interface that makes gathering information – from broad to very detailed – quick, flexible, and convenient.

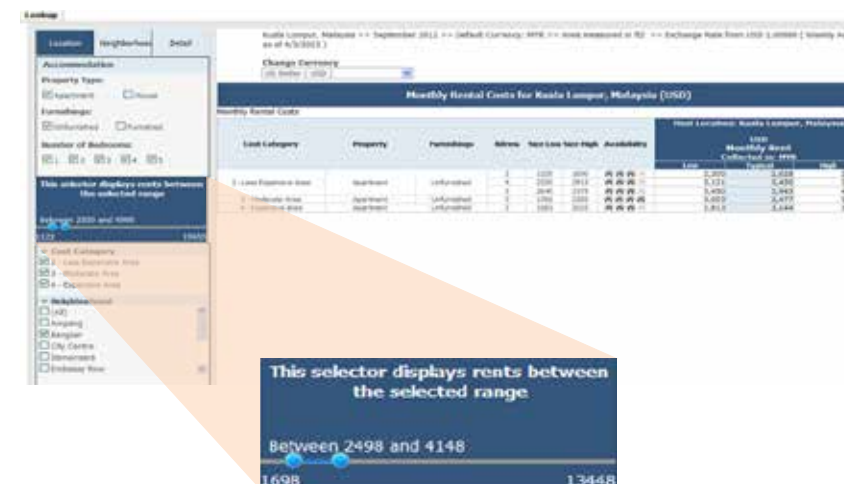

Interactive Mapping Technology

- Pinpoint sample housing listings and sites like schools and airports
- Explore neighborhoods and see street-level photos
- Add pushpins for landmarks (like company offices) to see their proximity to housing
- Include/exclude neighborhoods to fit budgets and expatriate needs

Real Sample Listings

- See actual rentals, with photos, listed at the time of our surveys, for a realistic sense of available accommodations
- Sort and select housing options for a more precise budget estimate (such as furnished/unfurnished, price tier, and number of bedrooms)
- View details on apartment size, number of bedrooms/bathrooms, utility costs, deposits and fees, and other amenities

Reverse Lookup

- Search for housing options based on a specific budget amount
- Limit listings by neighborhood, number of bedrooms, furnished/unfurnished, house/apartment, and other options
- See and demonstrate the tradeoffs for a certain location and budget range. The budget may allow for smaller lodgings in a more expensive area or a larger apartment in a more affordable location.
