

## HR Information at Your Fingertips

Mercer's "mobile companion" products provide quick and easy access to important information (e.g., contacts) when you're on the go. Or, they can bring the best of your HR Portal right to your mobile device – one touch news updates and one click to call.

### Why Mobile Tools?

- Great additions to communication programs involving plan changes and open enrollment, or to get the word out about new contact information
- Give employees what they need the way they want to get it
- Show HR is "on the move" with technology

### Why Mobile Web?

- Great way to promote/remarket your HR website!
- Innovative way to target programs, such as wellness apps (i.e., logging daily exercise)

## Our Solutions

### Mobile Wallet Card

Our Mobile Wallet Card provides quick reference contacts – websites or phone numbers – in your pocket

### What's with all the boxes?

The boxes are Quick Response or QR codes. Basically, they are barcodes that tell your smartphone to access a website's URL.

### Not sure what to do?

1. Visit your app store and download a free “barcode scanner” application
2. Open the application, point your phone's camera at the code and scan it
3. The code will take you to the mobile site shown
4. To save the icon on your mobile device (app-like), simply bookmark the page to your browser and/or save to your home screen following the prompts on your mobile device.
